ABOUT US

ABOUT US

ELITEELECTRIC PROLIGHT Pvt. Ltd. formerly known as New Elite Electricals is a professional event lighting manufacturer and trader.

Our aim is to deliver competitively priced products that can cater to the demanding Indian market conditions for quality and stability while continuously supporting our customers with efficient after sales service so that they receive a profitable return on their investment.

Originally established in 1992 as a decorative lighting distributor, our intelligent lighting series has recently shot to fame in the past decade or so with some of the best event rental companies in India who have chosen our products.

Durability is our prime focus and our manufacturing process reflects this at every point. Every single product that bears our name goes through rigorous quality checks. We also conduct batch test through artificially aging randomly selected products from each batch of lights that we manufacture.

Luxury packaging and expensive promotional activities or even lower priced products are not what comes to mind when one thinks of Elite. The positive feedback that we receive from our customers is what drives us with a sense of pride and further pushes our already high standards of after sales service to new levels.

► MOVING HEAD SERIES

RAINBOW 300

Rainbow 300N is the economic proposition of the current Industry pinnacle of moving head beams. Drawing from its bigger brother in terms of form and function, this fixture is a high power, multi prism discharge lamp moving head with spectacular mid-air effects. This fixture utilizes and Philips MSD250w / Osram HRI 251W lamp that helps keeps it cost effective yet diversely capable. Its high precision optic lens system and Philips MSD250w / Osram HRI 251W lamp creates extremely high brightness with a sharp intense beam. This fixture is remarkable considering its high output to low power consumption ratio. The unique casing enables all this in a low footprint while allowing for high speed movement with low noise.

► Model No. : 11001001

LAMP SOURCE

Lamp type: Philips MSD 250w / Osram HRI 251W
Average life: 1500 hours
Color temp: 7800/7890K
Reflector: Lamp and reflector together in one unit
Lens: high-precision optical lens
Beam angle: 0-4"

COLOR SYSTEM

13 color filters + Open
Rainbow can be created

GOBO SYSTEM

12 Fixed Gobos + 4 Glass Gobos
+ Open , Shake Effect.

EFFECT EQUIPMENT

Independent frost soft effect, Mechanical linear 0-100% dimming, Fast strobe, multiple strobe effects, (Pulse/asynchronous/synchronous/ slow-medium-fast at random)
Prism: 3 prism wheels (Bi-directional, Rotatable, Speed adjustable)
(1 self-rotating 8 facet circular prism and 1 self-rotating 6 facet linear prism and 8+16 facet circular prism)
Creates a total of 7 prism effects

IP RATING

IP20

MOVING PARAMETER

Angle: Pan 540°, Tilt 270°
PAN and TILT adopt an electro-optic reset system which automatically resets the parameters if any change is caused by accident.

CONTROL AND PROGRAMMING

Control channel: 16CH / 20CH
Control Mode: Standard DMX512 protocol, RDM (Optional), Auto Run, Sound
Menu display: 16 million pixels LCD display
Menu display can be rotated 180 degrees.

ELECTRONIC CONTROL TECHNOLOGY

Intelligent fan control
Electronic sensor detection
DMX control monitor
X/Y two-phase motor drive
Query by LCD screen

POWER SUPPLY

AC100-240V 50/60Hz
Electronic ballast
Consumption: 550W

PHYSICAL

Product dimensions: 33 x 26 x 54 CM
Net weight: 14KG
Gross weight: 49KG
Flight case packaging (2 in 1): 71.5 x 41.5 x 74 CM

► MOVING HEAD SERIES

RAINBOW 400

Rainbow 400 is a high power, multi prism discharge lamp moving head with spectacular mid air effects. Its high precision optic lens system and 311w Osram lamp creates extremely high brightness with a sharp intense beam. This fixture moves from the recent tradition of measuring moving head beam brightness by checking the number that precedes the "R" of the lamp, towards an international standard of low power high efficiency lamps. The new innovative modular housing brings a modern look to moving head fixtures that is compatible with the set designs of today.

► MOVING HEAD SERIES

RAINBOW 600

Introducing the Rainbow 600, our latest flagship moving head beam that reigns supreme in our product lineup. Featuring a powerful 420W Osram/Philips lamp, it sets a new international standard while staying true to the affordable price point synonymous with our brand. Packed with premium features, this fixture leaves no stone unturned, offering unparalleled performance without compromises. From meticulously crafted optics to lightning-fast response times, every aspect of its design has undergone rigorous research and development over the span of two years. We're thrilled to finally unveil the culmination of our dedication and hard work.

SPECTRA 350

Our Spectra range has recently joined our lineup, offering cost-effective solutions for premium applications while upholding the same reliability as our Rainbow range. By incorporating a new housing and basic internal components, we've managed to present this lineup at a more accessible price point without compromising quality. The Spectra 350 takes inspiration from the Rainbow 300, delivering comparable features and functionality.

SPECTRA 580

In line with the ethos of our Spectra range, this fixture is designed to offer a premium solution while boasting specifications comparable to our esteemed Rainbow 600. By leveraging the same dedication to quality and innovation, we've crafted a product that delivers exceptional performance but in a smaller form factor. Just like its counterparts in the Spectra range, this fixture inherits the reliability and functionality that define our brand. Drawing inspiration from the Rainbow 600, it incorporates similar specifications to ensure a consistent level of excellence. From its powerful illumination to its intuitive controls, every aspect of this fixture is engineered to meet the diverse needs of our customers.

SPECTRA BSW 500

The Spectra BSW500 is a mid air effect 3 in 1 fixture that is capable of a beam, spot and wash from 1 type of light. A rugged build quality with a high end optic lens allows for these effects with no compromise. It can be used via 22 DMX channels depending on the desired functionality. It is fitted with 2 gobo wheels of which the first is static and has 11 gobos while the second is a rotating wheel with 7 changeable glass gobos and 1 open slot. The possibilities of effects that can be created with this fixture are endless.

► Model No. : 11001006

LAMP SOURCE

Lamp type: OSRAM 371W Lamp,
Average life: 2500 hours
Color temp: 7800K
Reflector: Lamp and reflector together in one unit
Lens: high precision optical lens
Beam angle: 2.5°
Zoom Range: 5° - 40° (linear High Speed zoom)

COLOR SYSTEM

8 color filters + Open
Rainbow color effect

GOBO SYSTEM

1 rotating gobo wheel with 7 glass gobo + Open, with the features of self-rotating, water running and shaking effects, gobo wheel can be positioned
1 fixed gobo wheel with 11 gobo + Open

EFFECT EQUIPMENT

Independent frost soft effect, Mechanical linear 0-100% dimming, Fast strobe, multiple strobe effects (pulse/ asynchronous/synchronous/ slow-medium-fast at random)
Prism: 2 prisms (1 self-rotating 16-facet circular prism and 1 self-rotating 6-facet linear prism)
(Bi-directional, Rotatable, Speed adjustable)

IP RATING

IP20

MOVING PARAMETER

Angle: Pan 540°, Tilt 270°
PAN and TILT adopt an electro-optic reset system which automatically resets the parameters if any change is caused by accident.

CONTROL AND PROGRAMMING

Control channel: 22CH / 26CH
Control Mode: Standard DMX512 protocol, Auto Run, Sound.
Menu display: 16 million pixels LCD display (Touch Screen)
Menu display can be rotated 180 degrees

SPECTRA BSW CMY 650

Introducing our latest innovation within the Spectra range, the SPECTRA BSW - CMY 650. Building upon the foundation of the SPECTRA BSW - CMY 650, this fixture raises the bar with a slightly more powerful 381-watt Osram lamp, enhancing its lighting capabilities without compromising on quality.

While retaining all the exceptional features and functionalities of its predecessor, the SPECTRA BSW - CMY 650 distinguishes itself with two standout additions. Firstly, it now includes a Color Temperature Orange (CTO) feature, allowing for greater flexibility and control over the lighting output. Secondly, the upgraded Osram lamp further elevates its performance, ensuring even brighter and more dynamic illumination across various applications.

► Model No. : 11001011

SPECTRA BSWF 700

Introducing the revolutionary BSWF, a groundbreaking all-in-one fixture that leaves no room for compromise. With state-of-the-art technology at its core, this fixture represents the pinnacle of innovation in the lighting industry. Combining the functionality of a beam, spot, and wash, the BSWF goes above and beyond by offering an additional ability to frame, akin to a profile fixture. This unique feature sets it apart, allowing for unparalleled precision and control over light output. At the heart of the BSWF is a powerful 450-watt white LED engine, delivering exceptional brightness and clarity across all modes of operation. Whether you're illuminating expansive stages, creating dynamic effects in theaters, or enhancing architectural spaces, this fixture offers unmatched versatility and performance. Experience the future of lighting with the BSWF—an innovative solution that redefines what's possible and empowers lighting professionals to push the boundaries of creativity.

WASH 300

WASH 300 is a high performance LED beam wash moving head. Extreme brightness and 8° to 54° zoom range make this fixture perfect in a range of applications, either as a beam light with multi-color rays, or as a wash light with a very wide projection. It is suitable for medium/ big venues, and it's the perfect solution for TV studios, delivering top-of-the-line visual effects or perfectly uniform wash lighting. It is equipped with 19pc 15W RGBW 4in1 LEDs.

WASH 500 BI

Introducing the WASH 500 BI, the big brother of our esteemed Wash 400 BI. Sharing the same powerful configuration of seven 40-watt LED lamps, this fixture is housed in a full-sized chassis specifically crafted for event rental companies.

Designed to meet the demands of professional lighting setups, the WASH 500 BI delivers exceptional performance and versatility. Whether illuminating large event spaces, outdoor venues, or concert stages, this fixture offers unparalleled brightness and coverage, ensuring every detail is brought to life with stunning clarity and precision.

With its robust construction and advanced features, including dual-functionality as both a beam and wash fixture, the WASH 500 BI is the perfect choice for event rental companies looking to elevate their lighting inventory. From corporate events to music festivals, this fixture delivers unmatched reliability and performance, setting the standard for excellence in event lighting.

► CLUB LIGHTS SERIES

LED BEAM 180

Introducing the LED BEAM 180, a dynamic lighting fixture tailored to elevate entertainment experiences across a spectrum of venues, from vibrant bars to lively nightclubs, and everything in between.

Crafted with a suite of advanced features, the LED BEAM 180 is designed to seamlessly integrate into any lighting setup. With Remote Device Management (RDM) functionality and controllable address code adjustment, customization is effortless, ensuring optimal performance in diverse configurations. Its compact size and lightweight design make transportation and installation a breeze, providing convenience without compromise.

Driven by an energy-efficient LED light source, this fixture delivers exceptional light efficiency and boasts a long service life, prioritizing sustainability without sacrificing performance. The beam emitted is strong, sharp, and faster, ensuring captivating visual effects with a stable operating speed that enhances any atmosphere.

But innovation doesn't end there. Our intelligent temperature-controlled bearing fan ensures whisper-quiet operation, minimizing disruptions and maximizing immersion in the entertainment experience.

From pulsating music restaurants to energetic KTV halls, the LED BEAM 180 is the perfect companion for creating unforgettable moments. Elevate your venue's ambiance with this environmentally conscious yet powerful lighting solution, designed to leave a lasting impression on patrons and performers alike.

► CLUB LIGHTS SERIES

LED BEAM 150

► Model No. : 11022002

Introducing the LED BEAM 150, a dynamic lighting fixture tailored to elevate entertainment experiences across a spectrum of venues, from vibrant bars to lively nightclubs, and everything in between. Crafted with a suite of advanced features, the LED BEAM 150 is designed to seamlessly integrate into any lighting setup. With Remote Device Management (RDM) functionality and controllable address code adjustment, customization is effortless, ensuring optimal performance in diverse configurations. Its compact size and lightweight design make transportation and installation a breeze, providing convenience without compromise. From pulsating music restaurants to energetic KTV halls, the LED BEAM 150 is the perfect companion for creating unforgettable moments. Elevate your venue's ambiance with this environmentally conscious yet powerful lighting solution, designed to leave a lasting impression on patrons and performers alike.

LAMP SOURCE

Lamp type: 150W LED
 Lens: high-precision optical lens
 Beam angle: 2-3 °

COLOR SYSTEM

7 colors + white light

GOBO SYSTEM

8 Fixed Gobos

EFFECT EQUIPMENT

Independent frost soft effect, Mechanical linear 0-100% dimming, Fast strobe, multiple strobe effects, (Pulse/asynchronous/synchronous/ slow-medium-fast at random) Prism: 6+12 Prisms.

MOVING PARAMETER

Angle: Pan 540°, Tilt 270°
 PAN and TILT adopt an electro-optic reset system Which automatically resets the parameters if any change is caused by accident.

CONTROL AND PROGRAMMING

Control channel: 10CH / 12CH
 Control Mode: Standard DMX512 protocol, RDM (Optional), Auto Run, Sound
 DMA interface: RJ45 network port, XLR port
 Menu display: 16 million pixels LCD
 The menu display can be rotated 180 degrees.

ELECTRONIC CONTROL TECHNOLOGY

Intelligent fan control
 Electronic sensor detection
 DMX control monitor
 X/Y two-phase motor drive
 Query by LCD screen

POWER SUPPLY

AC100-240V 50/60Hz
 Consumption: 150W

▶ CLUB LIGHTS SERIES WASH SPOT 150

▶ Model No. : 11022003

The WASH SPOT 150, the newest addition to our Club Series lineup. At just 150 watts, it stands as the smallest wash fixture in the series, yet packs a punch with its impressive performance. Designed with installations in clubs, restaurants, and similar venues in mind, the WASH SPOT 150 offers unparalleled versatility and convenience. Its compact size makes it ideal for spaces where real estate is limited, while its powerful output ensures vibrant and dynamic lighting effects that elevate any atmosphere. Whether you're looking to wash the dance floor with pulsating colors or highlight key architectural features with precision, the WASH SPOT 150 delivers exceptional results. With its targeted design and robust features, it's the perfect lighting solution for venues seeking to enhance their ambiance and captivate audiences.

► **CLUB LIGHTS SERIES**
MOVING MATRIX

► **Model No. - 11022006**

MOVING MATRIX! An effect LED panel featured 441 X 0.3W RGB Hybrid LEDs, divided into 49 control sections with 9 LEDs in each block. The uniform color mixing performance and dynamic graphic effects utilized a variety of programmed effects, leaving a minimum amount of space between multiple luminaires will make it possible to create an eye-catching lighting art, an ideal tool for creating moveable virtual sets and complex light compositions with multiple panels. The unique base design allows the ceiling installation, side-wall hanging, and Pipe hanging. Apply to multiple applications such as Venue Event lighting, Entertainment center, Stage effects Party House, Club lighting, etc.

Technical Specification

Voltage: AC100~240V 50/60HZ

Power: 90W

Lamp beads: 441 X 0.3W 5050 RGB LED lamp beads

Control mode: DMX512, self-propelled, master-slave, with RDM function.

Channels: CH1, CH18, CH154, CH162

Dimming: 32bits 0-100% linear dimming

Features: XY shake head + burst flash + dyeing

Working temperature: -30 ° C-50 ° C

Strobe frequency: 1-30Hz

Appearance: Metal, black

Connection method: DMX512 input/output/power input/output.

Net Weight: 4.5 KG

Product Dimension: 27.2 X 25 X 25.2 CM

Gross Weight: 10 KG

PAR 180 RGBW IP

The PAR 180 RGBW IP is a powerhouse in the realm of LED lighting. Boasting 54X3W RGBW LEDs, it offers a vibrant array of colors with precision. Constructed with a robust die-cast aluminum housing and an efficient heat sink, it ensures durability and minimal power consumption. Its slim profile accommodates five lens angle options, providing flexibility for various lighting applications. Whether for professional setups or outdoor events, this PAR delivers reliability and versatility in every illumination.

Technical Specifications

Voltage: AC115-230V, 50/60 Hz
 Power: 120W
 Lamp source: 54X3W RGBW
 Color temperature: 6000K
 Life time: 80000h
 Lens angle: 15/25/20/45/60 °
 Channel: 4/8 CH
 Control mode: DMX512, master-slave, auto, sound control
 IP Rating: IP65
 Net Weight: 5.5 KG
 Gross Weight: 12.6 KG (Cardboard packing 2in1)
 Package: 60 X 30 X 33 CM (Cardboard packing 2in1)

WALL WASH 400 ZOOM

The WALL WASH 400 ZOOM is a powerful bar light that offers several operational modes for creating unique effects and looks. Whether your needs are for beams, washes, or strobes, the WALL WASH 400 ZOOM does all in this versatile fixture, perfect for any production. The WALL WASH 400 ZOOM fixture's main section has ten RGBW 40W LEDs.

Technical Specifications:

LED Qty: 6pcs X 40W RGBW 4 in 1 LED
 Voltage: AC110-240V 50/60Hz
 Beam angle: 1.7°
 Zoom range: 5° - 35°
 DMX channels: 14/ 18/ 32 CH
 Control mode: DMX512 master-slave, sound control
 Display control: Auto run mode, Master/slave
 Dimmer: Linear or nonlinear Dimmer 0-100%
 Total Power: 300W
 Overheat protection
 Product Dimension: 50 X 11 X 27 CM
 Net Weight: 8.2 KG
 Flight case packaging (2 in 1): 69 X 31 X 36 CM
 Gross Weight: 27.2 KG
 IP Rating: IP 20

WALL WASH 1000 ZOOM

The WALL WASH 1000 ZOOM is a powerful bar light that offers several operational modes for creating unique effects and looks. Whether your needs are for beams, washes, or strobes, the WALL WASH 1000 ZOOM does all in this versatile fixture, perfect for any production. The WALL WASH 1000 ZOOM fixture's main section has ten RGBW 60W LEDs and the strip light portion of the fixtures has 96 3W cool white LEDs, 96 3W warm white LEDs, and 96 0.5W RGB LEDs and is capable of an output of 22,400 lumens. The strip light section has control over 12 individual zones on one side to create the looks you want.

Technical Specifications

Beam angle: 2.8°-31°
 Spot angle: 5°-46°
 DMX channels: 17/27/99/108/168/8+100/8+160/170 CH
 Control mode: DMX512 master-slave, sound control
 Display control: Auto run mode, Master/slave
 Dimmer: Linear or nonlinear Dimmer 0-100%
 LED Qty: 10 LED X 60W RGBW
 LED Strip: 96LED X 3W cool white LEDs, 96LED X 3W warm white LEDs, and 96LED X 0.5W RGB LEDs.
 Voltage: AC110-240V 50/60Hz
 Total Power: 800W
 Overheat protection
 Net Weight: 23 KG
 Product Dimension: 110 X 34 X 41 CM
 Flight case packaging (2 in 1)
 Gross Weight: 58 KG
 IP Rating: IP 20

► Model No. : 11005003

STROBE 1000 PIXEL

Enter the realm of dynamic lighting with the STROBE 1000 PIXEL, a high-powered LED strobe featuring 1000 RGB LED lamps. With an output of 80,000 lumens and versatile dimming options, it delivers captivating effects. Boasting a robust aluminum chassis and streamlined design, it ensures durability and style. Whether for concerts, clubs, or events, its pixel effects and multi-mode control options offer endless creative possibilities. Lightweight yet powerful, it's the ultimate choice for professional lighting setups.

Technical Specifications

Rated voltage: AC110-220V ±10%/50-60HZ
 Rated power: 450W Chassis: Full aluminum
 Emitting color: RGB Light source life: More than 50,000 hours
 A lamp number: 1000pc 5054 LED
 Dimming: 0-100% linear electronic dimming
 Strobe: 1 -30 times / second conventional random strobe, flash, flash array
 Control mode: DMX512, master / slave mode, voice mode, single mode, self-propelled
 Channel function: Dimmer, strobe, red, green, blue, macro, macro speed, Auto
 Channel: 3/11/36 CH
 Appearance: Metal shell, Streamline design
 Net weight: 7.6 KG
 Gross weight: 17.5 KG
 Cardboard packing (2in1)
 Carton size: 55 X 31 X 47 CM

► Model No. : 11005004

STROBE 1000 AUTOMIC

The STROBE 1000 AUTOMIC is the perfect blend of a traditional strobe and cutting-edge LED technology. This new version features identical functionality and behaviour – with the added benefits of LED technology. It offers the same extreme brightness as its iconic predecessor, but with substantially lower peak power consumption. The STROBE 1000 AUTOMIC is not only a strobe, but also a creative tool that incorporates backlight illumination with RGB-controlled LEDs pointing into the reflector. It delivers stunning eye candy looks similar to the Wash. Internal FX macros and simplified re-use of the original Atomic Colors scroller complete the full-feature package and empower the STROBE 1000 AUTOMIC to become the ultimate creative lighting tool.

Technical Specification

Voltage: AC100-240V 50/60HZ
 Power: 350W (RGB: 130W, W: 220W)
 Lamp beads: 256 3030 white light 1 watt, 864 5050 RGB 0.2 watt lamp beads
 Control mode: DMX512, self-propelled, master-slave, voice control, with RDM function.
 Channels: CH04, CH17, CH145
 Dimming: 32bits 0-100% linear dimming
 Features: 96 segments RGB + 32 segments W + dyeing + flashing
 Working temperature: -30 ° C-60 ° C
 Strobe frequency: 1-30Hz
 Appearance: Metal, black
 Connection method: DMX512 input/output/power input/output.
 Net weight: 4.5 KG Gross weight: 10 KG IP level: IP20
 Product Dimension: 48 x 30 x 40 CM

STROBE 2000 AUTOMIC IP

The STROBE 2000 AUTOMIC IP is the perfect blend of a traditional strobe and cutting-edge LED technology. This new version features identical functionality and behaviour – with the added benefits of LED technology. It offers the same extreme brightness as its iconic predecessor, but with substantially lower peak power consumption. The STROBE 2000 AUTOMIC IP is not only a strobe, but also a creative tool that incorporates backlight illumination with RGB-controlled LEDs pointing into the reflector. It delivers stunning eye candy looks similar to the Wash.

Technical Specifications

LAMP SOURCE
 Source: 630×3W CW LED
 + 1120×1.5W RGB LED
 Beam angle: 68°
 Filed angle: 114°
 Lifetime: 50000 H

CONTROL & PROGRAM
 Channel: 15/50/158 CH
 Protocol: DMX512, RDM
 Data connector: 3PIN XLR

POWER CONSUMPTION
 Voltage: AC 110V ~ 240V 50/60Hz
 Rated power: 540 W
 Strobe power: 1100 W

EFFECT
 Strobe: 1 ~ 20Hz
 Dimming mode: 5 kinds
 Dimming curve: 4 kinds

SIZE & WEIGHT
 Cardboard Packaging: 48X33X50 CM
 Net Weight: 10.45 kg
 Gross Weight: 21.3 Kg
 IP rating: IP65

STROBE BEAM PIXEL 1500

The STROBE BEAM PIXEL 1500 fixture is inspired by the elements and is designed to perform in them as well. This fixture provides dynamic strobes, powerful pointed beams, and soft flood wash. We have integrated our Smart Glass Technology extends the range and usefulness of the LIGHTNING, making it one of the most versatile strobe and wash fixtures on the market. Smart Glass Technology is a controllable electronic frost softens the fixture's light allowing additional effects.

Technical Specifications

LAMP SOURCE
 Source: 30 3535 warm white 10W 600 5050 RGB 0.3W lamp beads
 Beam Angles: RGBW: 102°, Cool White: 3.5°
 Lifetime: 20000 HRS
 Channel: 09/ 14/ 16/ 19/ 23AC/ 23BC/ 25/ 31/ 35/ 51/ 120/ 128 CH
 Protocol: DMX512, RDM
 Data connector: 3PIN XLR

POWER CONSUMPTION
 Voltage: AC 110V ~ 240V 50/60Hz
 Rated power: 400 W

SIZE & WEIGHT
 Size: 50 × 16 × 19 CM, Net Weight: 6.75 KG
 Cardboard Packaging (2in1): 57 x 27 x 42 CM,
 Gross Weight: 14.5 KG
 IP Rating: IP 20

FOLLOW SPOT 250

Introducing the FOLLOW SPOT 250 – your ultimate lighting solution for dazzling performances! With a power consumption of 450W and featuring an OSRAM 251W bulb, prepare to be amazed by its brilliance. Choose from 4 colors plus white to create captivating effects, while the adjustable aperture size adds versatility to your lighting setup. With a range of safety measures and a high-strength air-cooled thermal system, rest assured your performance will shine bright.

Technical Specifications

Power consumption: 450W
 Bulb specification: OSRAM 251W
 Colour: 4 colours + white
 Control signal: Self-matching signal
 Control mode: Stand-alone mode
 Optical system: High precision (4 fans)
 Thermal system: High-strength air-cooled (double fan)
 Aperture effect: Adjustable aperture size
 Strobe: 1-7 times / second strobe
 Color temperature: 5600K/6000K/3200K
 Light Distance: 10-25M
 Light angle: 23°
 Safety measures: Meet a variety of safety standards, IP20 protection level, the power cord in line with CE20 / 22 three standard, high temperature automatic cut off protection device
 Shell: Aluminum alloy edge
 Net Weight: 12.3 KG
 Gross Weight: 28.4 (Flight Case)
 Size: 68 X 44 X 42 CM

FOLLOW SPOT 380

Introducing the FOLLOW SPOT 380 – your ultimate lighting solution for dazzling performances! With a power consumption of 600W and featuring an OSRAM 371W bulb, prepare to be amazed by its brilliance. Choose from 4 colors plus white to create captivating effects, while the adjustable aperture size adds versatility to your lighting setup. With a range of safety measures and a high-strength air-cooled thermal system, rest assured your performance will shine bright.

Technical Specifications

Power consumption: 600W
 Bulb specification: OSRAM 371W
 Colour: 4 colours + white
 Control signal: Self-matching signal
 Control mode: Stand-alone mode
 Optical system: High precision (4 fans)
 Thermal system: High-strength air-cooled (double fan)
 Aperture effect: Adjustable aperture size
 Strobe: 1-7 times / second strobe
 Color temperature: 5600K/6000K/3200K
 Light Distance: 10-25M
 Light angle: 23°
 Safety measures: Meet a variety of safety standards, IP20 protection level, the power cord in line with CE20 / 22 three standard, high temperature automatic cut off protection device

Shell: Aluminum alloy edge
 Net Weight: 15 KG
 Gross Weight: 30 (Flight Case)
 Size: 68 X 37 X 34 CM

► Model No. : 11007006

FRESNAL SPOT ZOOM 300

Introducing the FRESNAL SPOT ZOOM 300 – your ultimate lighting solution for dazzling performances! With a power consumption of 300W and featuring an 300W LED, prepare to be amazed by its brilliance. While the adjustable aperture size adds versatility to your lighting setup. With a range of safety measures and a high-strength air-cooled thermal system, rest assured your performance will shine bright.

Technical Specifications

Power consumption: 300W
 Bulb specification: 300W LED
 Colour: Warm white 3200k
 Ra >95 suitable for video camera
 Dimmer: 0-255 linear dimming, flicker free
 Control mode: DMX
 DMX Channel: 3 CH
 Thermal system: High-strength air-cooled (double fan)
 Aperture effect: Adjustable aperture size
 Light angle: 15° - 50° Display Blue LCD
 Working temp.: -20°C—45°C
 Suitable for Media room, Electronic classroom, Hall, Gym
 Cooling: Body heat sink + quiet fan
 Temperature control safety of the light
 Safety measures: Meet a variety of safety standards, IP20 protection level, the power cord in line with CE20 / 22 three standard, high temperature automatic cut off protection device
 Shell: Aluminum alloy edge
 Net Weight: 11 KG
 Gross Weight: 12 KG (Cardboard Packaging)
 Size: 64 X 29 X 25 CM

► Model No. : 11007007

LED PROFILE ZOOM 200

Introducing the LED PROFILE ZOOM 200 – the modern alternative to traditional tungsten lamp profile spots! With its sleek design and variable focus, this 200W LED fixture is perfect for theaters and rental applications. Choose from 4 different degree options to tailor your lighting setup. Offering both pure white and warm white options, and with DMX512 control signal, versatility is at your fingertips. With a compact size and high-quality optical system, the PROFILE SPOT LED is your go-to choose for professional lighting solutions.

Technical Specifications

200W LED profile spot
 Lamp Power: 200W
 Total power: 250W
 Voltage: AC100V-240V/50Hz/60Hz
 Beam angle: 19° - 36°
 Ra >95 suitable for video camera
 Dimmer: 0-255 linear dimming, flicker free
 Color temperature: 3000K
 Control signal: DMX512
 Lamp: Pure white / warm white.
 Channel mode: 2 CH
 Display: Blue LCD
 Working temp: -20°C—45°C
 Suitable for Media room, Electronic classroom, Hall, Gym
 Cooling: Body heat sink + quiet fan
 Size: 70 X 30 X 32 CM
 Gross weight: 8.4 KG
 Net weight: 7 KG

LASER BATTEN RED 3000

Introducing the LASER BATTEN RED 3000. Experience the benefits of its compact design, measuring 85x24x10 cm, allowing seamless integration into various setups. Enjoy versatile control options with Auto, DMX, Master-Slave, and Sound modes, offering ultimate flexibility in operation. Create mesmerizing visuals with single red laser beams, adding dynamic effects to elevate your lighting displays.

Technical Specifications

Voltage: AC115-230V, 50/60 Hz

Laser Power: 500MW X 6

Lamp source: RED: 500MW/638nm

Control mode: DMX512, master-slave, auto, sound control

IP Rating: IP20

Size: 85 X 24 X 10 CM

Net Weight: 11 KG

Gross Weight: 35 KG (Flight case packaging 2 in 1)

Package: 91 X 27 X 26 CM (Flight case packaging 2 in 1)

► Model No. : 11008022

LASER BATTEN RGB 12000

Step into the spotlight with the ELITE LASER BATTEN RGB 12000! This powerhouse of a lighting fixture boasts six heads, each packed with vibrant laser power. With full X/Y scanning and a plethora of pre-set patterns, it's your secret weapon for creating unforgettable stage effects. Whether you're controlling it via ILDA, DMX512, or sound, the ELITE LASER BATTEN promises a dazzling performance every time.

Technical Specifications

Voltage: AC115-230V, 50/60 Hz

Laser Power: 2W X 6

Lamp source: RED: 638nm
GREEN: 520nm
BLUE: 447nm

Scanner: 20KPPS X 6pcs

Max angle: 50°

Control mode: ILDA, DMX512, master-slave, auto, sound control

Control channel: 12/62 CH

IP Rating: IP20

Size: 100 X 15 X 17 CM

Net Weight: 22 KG

Gross Weight: 32 KG (Flight case packaging 1 in 1)

Package: 121 X 33 X 36 CM (Flight case packaging 1 in 1)

▶ **Model No. : 11015001/3/5**

- Rated voltage: AC100-240V 50/60Hz
- Power consumption: ≤100W
- Scanner: 25kpps, scan angle: max ±30°; Input signal: ±5V; Linearity distortion < 2%
- Motor: 3 phase 42 motor 2pcs
- X axis 540° rotation, Y axis 270° rotation
- Modulation: analog
- Beam diameter and divergence: 3*6.5mm; 1.5mrad
- Control mode: music (black out)/ automatic/master-slave/DMX512(6/40CH)/ILDA
- Control interface: 3 pin DMX512/25DB ILDA
- Demonstration effect: built-in 140 pattern and 5 pages of animation
- DMX effect: single pattern mode, and with the function of unique blanking, strobe, rotation, movement, billowing, zoom, write in, speed and color etc.
- Operating requirement: dry, less dust, 0-35°C (environmental temperature), will reduce the attenuation of the diode and extend the life of the light.
- Application: disco, club, concert, medium indoor venue, festival

RETRO FAN

The next step for decorative stage lighting based on LEDs. Completely new, unique design and strong dim to warm light sources and RGBW glow are the perfect combination that will work well in a small studio and on a big festival stage. It can suit to any mood of the event perfectly.

A lot of power. 260W in LEDs! Three main powerful and dim to warm light sources. 60W in LEDs, emulating a strong halogen lamp. These are accompanied by RGBW glow in each cell.

Voltage: AC100-240V 50/60HZ
 Power: 260W
 Light source: 3 X 60W Amber LEDs, 36 X 3W 3535 3IN1 LEDs, 1 X 40W 4IN1 LEDs
 Control mode: DMX512, self-propelled, master-slave, voice control, with RDM function.
 Channels: 15/20/26 CH
 Dimming: 32bit 0-100% linear dimming
 Features: Dyeing + flash + auxiliary light
 Stroboscopic frequency: 1-30HZ
 Appearance: metal, black
 Connection mode: DMX512 input/output/power input/output.
PHYSICAL
 Product dimensions: 49 x 45 x 23 CM
 Net weight: 8.6KG
 Gross weight: 30KG
 Flight case packaging (2 in 1): 91 x 54 x 32 CM
 IP Rating: IP20

► **Model No. : 11009002**

RETRO 1

Well-known, timeless design with powerful LED sources emulating halogen behaviour. A combination of very strong tungsten emulated main LED sources and RGBW glow are perfect for any stage and any mood of an event.

Technical Specifications
 Voltage: AC100-220V 50/60HZ
 Power: 240W
 Light source: 72 5050 three color LED beads + long white light beads
 Control mode: DMX512, self-propelled, master-slave, voice control, with RDM function.
 Channels: CH04, CH10 CH55
 Dimming: 32bit 0-100% linear dimming
 Features: Dyeing + flash + auxiliary light
 Working temperature: -30 ° C-50 ° C
 Stroboscopic frequency: 1-30HZ
 Appearance: metal, black
 Connection mode: DMX512 input/output/power input/output.
PHYSICAL
 Product dimensions: 43 x 41 x 41 CM
 Net weight: 2.4 KG Gross Weight: 5.2 KG
 Cardboard Packaging(2in1): 51 x 26.5 x 28 CM
 IP Rating: IP20

RETRO 4

Completely new, unique design. Perfect for building bigger structures, where your creativity is the only limit. A combination of very strong tungsten emulated main LED sources and RGBW strips are perfect for any stage and any mood of an event. Which can create immense design of multiple circular moving matrix.

RETRO 5

Completely new, unique design. Perfect for building bigger structures, where your creativity is the only limit. A combination of very strong tungsten emulated main LED sources and RGBW strips are perfect for any stage and any mood of an event.

RETRO 6

Well-known, timeless design with powerful LED sources emulating halogen behaviour. A combination of very strong tungsten emulated main LED sources and RGBW glow are perfect for any stage and any mood of an event.

► Model No. : 11009003

Technical Specifications

Voltage: AC90-240V, 50Hz-60Hz
 Power: 500W
 Light source: 4 80w golden light + 48 3wRGB auxiliary lights
 Light average life: 50,000 HRS
 Control mode: DMX512, self-propelled, master-slave, voice control, with RDM function.
 Channels: 34 CH
 Dimming: 32bit 0-100% linear dimming
 Features: Dyeing + flash + auxiliary light
 Working temperature: -20-50 degrees
 Strobe: 25 beats per second
 Connection mode: International general DMX512, main/slave, self-propelled, voice control.
 PHYSICAL
 Product dimensions: 100 x 15 x 15.5 CM
 Net weight: 12KG
 Cardboard Packaging (2in1): 101 X 33 X 21 CM
 IP Rating: IP20

► Model No. : 11009004

Technical Specifications

Voltage: AC100-240V 50/60HZ
 Power: 300W

FOG 500

Enjoy small smoke effects with the FOG 500. Its portable and compact design, user-friendly dual control options (manual and remote), fast heat up, and decent output make it suitable for smaller stage shows, mobile DJs, theatrical productions, home studios, and hobbyists.

Technical Specifications

Heat up time: 6 M
 Controller: Remote controller, manual controller
 Electronic thermo switch
 Output: 6400 cu. ft / M
 Fluid consumption rate: 32 M / L (100% output)
 Tank capacity: 0.5 L
 Power: AC110V, 220V-250V 50-60Hz
 Heater: 500 W
 Net Weight: 1.5 KG
 Gross Weight: 19.75 KG
 Package: 82X28X35 CM
 Cardboard packing (4in1)

► Model No.: 11010002

FOG 1500

Experience robust fogging at a budget-friendly price with the Fog 1500. User-friendly operation with manual and remote control, coupled with safe and reliable microcomputer temperature regulation, makes it perfect for smaller stage productions, themed events, school performances, DJs, entertainers, haunted houses, film, and photography.

Technical Specifications

Heat up time: 3 M
 Controller: DMX 512, remote controller, manual controller
 Electronic thermo switch
 Output: 16000 cu. ft / M
 Fluid consumption rate: 14 M / L (100% output)
 Tank capacity: 2.5 L
 Smoke Distance: 5 mtr.
 Voltage Power: AC110V, 220V-250V 50-60Hz
 Heater: 1500 W
 Net Weight: 5.1 KG Gross
 Weight: 6.65 KG
 Dimensions: 51x24x30 CM

► Model No.: 11010003

FOG VERTICAL 1500

Immerse your space in vertical effects with the Fog Vertical 1500. Its versatility in floor, wall, or suspended mounting options, combined with advanced jet technology, creates a high-impact ambiance. Perfect for meeting the demands of theaters, concerts, and high-end productions.

Technical Specifications

Manual controller.
 Heat up time: 5 M
 Controller: Remote controller, DMX512, Manual controller
 Electronic thermo switch
 Output: 18000 cu. ft / M
 Fluid consumption rate: 6.7 M / L (100% output)
 Tank capacity: 2.5 L
 Smoke Distance: 6.8 mtr.
 Power: AC110V, 220V-250V 50-60Hz
 Heater: 1500 W
 Gross Weight: 7.6 KG
 Net Weight: 6.5 KG
 Dimensions: 47x38x27 CM

**FOG 3000**

Enrich your event with the Fog 3000, delivering an unmatched fog experience. With rapid heat-up in just 5 minutes, versatile control options (DMX, manual, thermo switch) and highly efficient fluid consumption, it's a cost-effective solution. Pro-grade atomizer and robust heater ensure exceptional reliability. Compact and portable, it's ideal for live events, concerts, theater productions, themed vents, film, photography, nightclubs.

Technical Specifications

Heat up time: 3 M
 Controller: Remote controller, DMX512, manual controller
 Electronic thermo switch
 Output: 30000 cu. ft/M
 Fluid consumption rate: 5.7 M / L (100% output)
 Tank capacity: 5 L
 Power: AC110V, 220V-250V 50-60Hz
 Heater: 3000 W
 Weight: 13.2 KG

▶ Model No.: 11010023

**HAZE 1000**

HAZE 1000 is a super mini haze machine which is designed for KTV or parties specially, even with DMX function, low fluid consumption. Extremely compact size, 1.2-liter fluid tank is special designed and purposely matched to this unit, which can be replaced by new bottle directly if need. Easy-to-use, one knob controls the fog output. Furthermore, the optional wired and wireless controller can satisfy different user's need.

Technical Specifications

Heat up time: 2 Mins
 Automatic pigging: standard configuration
 Consumables: High purity smoke oil
 Controller: DMX512
 Channels: 2 CH
 Output: 150 M²
 Fluid consumption rate: 1-4ml/min (linear adjustable)
 Tank capacity: 1.2L
 Power: 700W
 Voltage: AC110-240v/50-60hz
 Limit current limiting: 250V /5A
 Gross Weight: 5 KG
 Net Weight: 4 KG
 Product Dimension: 33.6 X 15.5 X 25.3 CM
 Packaging: 35.5 X 25.5 X 27.5 CM

▶ Model No.: 11010005

**HAZE 2000**

Step into the world of uninterrupted haze with the Haze 2000. Featuring a unique heating system for clog-free output, it guarantees low maintenance and quiet operation. Durable construction ensures protection during transport. Versatile performance makes it an ideal choice for theaters, live events, nightclubs, film, photography, special events.

HAZE MACHINE OIL BASE

HAZE MACHINE OIL BASE is a cost-efficient and durable oil bases haze machine. Using high-pressure atomization technology, no heating system, to produce haze without waiting for pre-heat up. Extremely low fluid consumption rate and long-time continuous output, suit for all kinds of indoor and outdoor performances.

Technical Specifications

Controller: LCD, DMX512 and wireless remote control.
 Oil capacity: 3.2 liters
 Limiting insurance: 250V/5A
 Voltage: AC110V-220V 50/60Hz
 Power: 660W
 Net Weight: 28 KG
 Product Dimensions: 53 X 41 X 43 CM

► **Model No.: 11010015**

LOW FOG WATER BASE

LOW FOG WATER BASE creates a continuous spooky low-lying fog hugs the floor and dissipates without rising. By using the Ultrasonic technology, needs for dry ice is eliminated. Main consumables are pure water, environment friendly, cost saving and space saving. Enhanced duct material, lighter than similar models, portable and durable. User-friendly LCD display and operation, it is perfect for large clubs, large stage productions, rental companies and production release conference.

Technical Specifications

**FOG BUBBLE 2000**

Submerge your event in a dual effect with the Fog Bubble 2000, combining whimsical bubbles with ethereal fog. Powerful performance, smooth and reliable operation, effortless setup, and versatile ambiance make it perfect for weddings, celebrations, film, photography, stage productions, nightclubs, parties, and product launches.

Technical Specifications

Power OF Bubble: 200 W
 Bubble max electric current: 5 A
 Power of fog: 900 W
 Fog max electric current: 10 A
 Net Weight: 11.4 KG
 Gross Weight: 12.5KG
 Cardboard packing (1in1)
 Dimensions: 57×45×40.5 CM

▶ Model No.: 11010010

**BUBBLE BIG**

Create a bubble spectacle with the Bubble Big, continuously generating massive quantities of bubbles. Colorless and odorless, it covers large areas and is suitable for large-scale events, stage productions, weddings, parties, retail events, and children's entertainment.

Technical Specifications

Power: 300 W
 Control mode: Wireless remote control/electronic control
 Coverage: 100 M²
 Voltage: AC110-220V 50/60Hz
 Net Weight: 9.34 KG
 Gross Weight: 11.56 KG
 Cardboard packing (1in1)
 Dimensions: 49×49×43 CM

► **Model No.: 11010012**

CONFETTI CO2

Make a statement with Confetti CO2, a portable powerhouse with a sleek and sophisticated design. Its compact and convenient features, along with effortless setup and intuitive operation, make it perfect for weddings, upscale events, product launches, nightclubs, stage shows, and concerts.

Technical Specifications
 Max Height: 15M TO 18M
 Control: Manual control
 Net Weight: 20 KG
 Gross Weight: 30 KG
 Cardboard packing (1in1)
 Dimensions: 67×38×126 CM

► **Model No.: 11010016**

LED CO2 GUN

Handheld CO2 Gun produces thick white atmospheric column via high pressure liquid carbon dioxide, making your show more enjoyable. Adopt safe design concept with the excellent workmanship. CO2 Gun's barrel is made from aluminum, not only rust-proof, better quality, but also light weight. Cool-shaped CO2 gun, easy to operate, is quite suitable for DJ and singer. The white gas column can make you outstanding in the crowd on either the dancing floor or performance stage.

Technical Specifications
 Power: 20W
 Controller: Manual (LED CO2 GUN don't need DMX512 controller like other CO2 Machines, only need 1 gun + hose + tank. One co2 tank is needed per co2 gun).
 Spray distance: 6-7 meters (20-25 feet)
 Tank capacity: 1
 Net Weight: 6.5 KG
 Dimensions: 75 X 32 X 20 CM

► **Model No.: 11010020**

LED CO2 GUN BIG

Handheld LED CO2 GUN BIG produces thick white atmospheric column via high pressure liquid carbon dioxide, making your show more enjoyable with mix burst effect of different colours. The confetti effect can make you outstanding in the crowd on either the dancing floor or performance stage with color changing tube which changes from red, green, white...seven colors while shooting out. The safe design concept with the excellent workmanship & Cool-shaped LED CO2 GUN BIG is easy to operate, is quite suitable for DJ and singer.

Technical Specifications
 Power: 20W
 LED color: Yes
 Controller: Handle (No Power)
 Spray height: 6-7meters
 Net Weight: 9.5 KG
 Product Dimensions: 77 × 44.5 × 31 CM

▶ Model No.: 11010017

**LED CO2 COLOUMN**

LED CO2 COLOUMN is a large CO2 column, small and light, with unique low noise design, and convenient to operate via electrical control and DMX, suitable for all kinds of large venues and performances. The powerful CO2 atmospheric column can reach 7 meters height.

Technical Specifications

Power: 200W
 Voltage: AC220V 50/60Hz
 LED color: RGBW 4IN1
 Controller: DMX512
 DMX Channel: 7 channels
 Spray height: 6-7meters (depending on humidity)
 Pressure rating: up to 1400psi (96bar)
 Net Weight: 8 KG
 Product Dimensions: 30 × 30 × 42 CM

▶ Model No.: 11010025

**CO2 COLOUMN**

CO2 COLOUMN is a large CO2 COLOUMN, small and light, with unique low noise design, and convenient to operate via electrical control and DMX, suitable for all kinds of large venues and performances. The powerful CO2 atmospheric column can reach 7 meters height.

Technical Specifications

Voltage: AC110V,60Hz
 Power: 70W
 Working pressure: 5 Mpa.
 Consumption rate: 0.35kg/s
 Control mode: Manual control/DMX
 Column height: 6-7 meters
 Channel: 2 CH
 Net Weight: 5.3 KG
 Gross Weight: 6.8 KG
 Product: Dimension: 22.8 X 21 X 32.9
 Packaging: 45 X 35 X 30 CM

▶ Model No.: 11010026

**PRO DMX FAN**

PRO DMX FAN is a professional special auxiliary equipment, the shell adopted sturdy metal materials, firm and durable. Adjustable wind speed, wind outlet angle 270°adjustable; It can be hung used. Use with fog machine, PRO DMX FAN can thin the fog, spreading further; used with snow or bubble machine, snow or bubble can spread further and higher.

Technical Specifications

Voltage: AC 220V-240V 50/60Hz
 Power: 380W
 Rotate speed:1800rps/minute
 Air volume:4800m³/hour
 Gross Weight: 17 KG
 Packaging Dimension: 54 X 66 X 23.5 CM

▶ Model No.: 11011001

DMX CONTROLLER 1024

Experience commanding power with the DMX CONSOLE-1024. Managing up to 1024 channels across 96 fixtures, this console is ideal for large scale events and professional lighting setups. Craft dynamic lighting scenes with ease, thanks to its versatile control options and precise programming capabilities. With robust construction and seamless DMX connectivity, this console is the go-to choice for lighting designers, programmers, and rental companies alike.

Technical Specifications

Power: AC 100-240V / 50-60Hz.
 DMX Channels: 1024
 Mating number of fixtures: 96
 Control channels: Each Scanner 40 main channel + 40 trim
 Fixture Library: R20 pearl light library support
 The number of scenes that can be saved: 60
 The number of scenes that can run simultaneously: 10
 The total number of steps in a multi-step scenario: 600
 Scene time control: Fade in, fade out, LTP sliding
 Graphics can be stored for each scene: 5
 Fader's scenes and dimming: Support graphics can be run at the same
 Time the number: 10
 Master Faders: Global, Repeat, Lighting
 U disk read: Support FAT32 format
 Net Weight: 8.3 KG
 Gross Weight: 16.3 KG
 Flight case packaging (1in1): 56X44X22 CM

▶ Model No.: 11011009

DMX CONTROLLER 1024 MICRO

Experience commanding power with the DMX CONSOLE-1024 MICRO with new compact design & a sibling of DMX CONTROLLER 1024. Managing up to 1024 channels across 96 fixtures, this console is ideal for large scale events and professional lighting setups with ease to use in small working space. Craft dynamic lighting scenes with ease, thanks to its versatile control options and precise programming capabilities. With robust construction and seamless DMX connectivity, this console is the go-to choice for lighting designers, programmers, and rental companies alike.

Technical Specifications

Power: AC 100-240V / 50-60Hz.
 DMX Channels: 1024
 Mating number of fixtures: 96
 Control channels: Each Scanner 40 main channel + 40 trim
 Fixture Library: Avolite Pearl R20 library supported
 The number of scenes that can be saved: 60
 The number of scenes that can run simultaneously: 10
 The total number of steps in a multi-step scenario: 600
 Scene time control: Fade in, fade out, LTP Slope
 Shapes for each scene: 5
 Scene and dimmer by slider: Yes
 Interlocked scene: Yes
 Button controlled scene: Yes
 Shape generator: Shapes of Dimmer, Pan/Tilt, RGB, CMY, Color, Gobo, Iris and Focus
 Shapes to run simultaneously: 5
 Master slider: Global, playback, fixture
 U disk read: Support FAT32 format

▶ Model No.: 11011002

DMX CONTROLLER P2000

Versatility meets portability with the DMX CONTROLLER P2000. Designed for mobile DJs, small to medium-sized venues, and theatrical productions, this console offers efficient control over 40 fixtures with 36 channels each. Save and recall lighting scenes effortlessly, and craft dynamic shows with multi-step sequencing. With its lightweight design and user-friendly interface, the DMX CONTROLLER P2000 is perfect for first-time DMX users and budget-conscious applications.

Technical Specifications

Power: AC 100-240V / 50-60Hz.
 DMX Channels: 512
 Mating number of fixtures: 40
 Control channels: Each scanner 36 main channel
 The number of scenes that can be saved: 40
 The number of scenes that can run simultaneously: 4
 The total number of steps in a multi-step scenario: 40
 Master Faders: Global, Repeat, Lighting
 Net Weight: 3.7 KG
 Gross Weight: 20 KG
 Cardboard packing (5in1)
 Package: 63X44X31 CM

▶ Model No.: 11011011

DMX CONTROLLER 512

The newest DMX CONTROLLER 512 features the computer light controller; it can realize the data transferring operation between 2pcs updated 192CH controllers. The updated 192CH controller, following the universal DMX 512 protocol, can control 12pieces 16-channel scanners or other equipment's and chase program and manual control of scanners can be performed at the same time. The functions are compact, and it's convenient and flexible operation made it handled very easily. updated 192CH controller is suitable for different ballroom, taproom and small shows & events.

Technical specifications

Output signal: DMX512
 DMX channels: 1-192
 Maximum control channel amount of a scanner: 16
 Control number of scanners: 12
 Amount of chase: 12
 Maximum chase steps in a chase: 100
 Amount of scanner scene: 100
 Running scene directly: 12
 Manual operation of scanner: Yes
 Music run: Yes
 Blackout function: Yes
 Time of running chase can be adjust: Yes
 Cross of running chase can be adjust: Yes
 Port of DMX output: XLR-D3F
 Power supply: AC90-240V,50-60Hz,4W
 Size: 53.5X18.5X10CM
 Weight: 2.5KG

► Model No.: 11011004

DMX SPLITTER 8C

Take control of your lighting rig with the DMX SPLITTER 8CH 2IN1. Amplify your DMX signal to four independent outputs, providing greater fixture control and scalability for large-scale events and intricate lighting designs. With impeccable signal integrity and flexible configurations, this splitter is the perfect choice for demanding outdoor environments, touring artists, and rental companies seeking reliable performance and stability.

Technical Specifications

Power input: IEC connector on rear panel
 Power input: AC120V-240V 50Hz/60Hz
 Consumption: 20W
 Net Weight: 2.4 KG
 Gross Weight: 15.5 KG
 Cardboard packing (5in1)
 Package: 51X24X69 CM

► Model No.: 11011003

DMX SPLITTER 6C

Expand your lighting setup with the DMX SPLITTER 6CH ROUND. Easily distribute a single DMX signal to 6 separate lighting fixtures or areas, ideal for large-scale lighting setups and outdoor events. With independent power for each output port and convenient truss mounting options, this splitter ensures impeccable signal quality and organized cable management. Perfect for rental companies, touring productions, and complex lighting designs.

Technical Specifications

Input: XLR-3-M
 Output: XLR-3-F, RS-485
 Electrical isolation of the input to the output: AC300V
 Net Weight: 0.9 KG
 Gross Weight: 14 KG
 Cardboard packing (10 in 1)
 Package: 91X37X24 CM

▶ Model No.: 11011029

SPLITTER ARTNET RDM

The SPLITTER ARTNET RDM is designed for DMX-512 control signal amplification. It's especially designed for connections of DMX receivers (moving heads, color changers, dimmers etc.) in a daisy-chain configuration, and is suitable for applications in which the DMX-512 signal is weakened over long-distance transmission. SPLITTER ARTNET RDM will efficiently buffer and magnify the DMX signal, ensuring the DMX data transmission is accurate and reliable.

Technical Specifications

Power: AC100-240V, 50/60Hz
 DMX Connections: 2 DMX input, 8 DMX output.
 All the input /output with optoelectronic isolation.
 Support: ArtNet← →DMX signal bilateral conversion
 Ethernet connector: Supports Auto MDI/MDIX
 RJ45 Ethernet (LAN) connector, 10/100/1000M
 self-adaption, support TCP/IP protocol
 Net Weight: 2 KG
 Product Dimension: 48.2 X 44 X 15.5 CM

▶ Model No.: 11011018

ART-NET 12PX6U

ART-NET 12PX6U is a 12-port SD card offline controller. With 12 groups of outputports, can support DMX512, SPI type lamps, such as: TM1812, WS2811, UCS2903, UCS9812, SM17512 and other IC widely used in the industry. ART-NET 12PX6U uses FPGA as the core processor, and realizes high load, high frame rate, high gray scale & high synchronization control with the super parallel data computing capability of FPGA. The realization of a single station carrying 12K pixel point is very conducive to the construction of the engineering site wiring. ART-NET 12PX6U has an Ethernet interface, supports ART-NET,GC-NET standards,Users can connect to the controller via Ethernet and preview online. In ART-NET mode,support 72 DMX512 universes. ART-NET 12PX6U has external DMX512 trigger function, can access control console & KTV intelligent lighting control box, very suitable for bar, KTV room lighting control, accept the command call program, adjust speed, brightness, special effects, support up to 13 channels OF DMX512 instructionART-NET 12PX6U supports the multi-function editing software "ShadowDraw" independently developed by GICO Technology, Polar Color technology provides software tools that allow users to simply record MADRIX effect files for offline playback. ART-NET 12PX6U has been widely used in KTV, bars, office buildings, hotels, shop signs & other LED lighting projects.

Technical Specifications

Working Voltage: AC 90-240V
 Power Consumption: 3W
 Input trigger interface: RJ45 (DMX512)
 Ethernet interface: RJ45 (10M/100M)
 Output port: 12 ports
 Control Qty/Port: 1024 pixels
 Output Signal: DMX512/SPI(TTL)
 Working Temperature: -20°C ~ 65°C
 Dimension: L250×W175×H35 mm
 Weight (G.W):1.3 Kg
